## WORK CALL

The work concerns the "Tender Announcement for the Project Unified Information System for the Support of the Operational Functions of Health Units of the National Health System" by the Social Security Electronic Governance (EDIKA) S.A.

You work for a company that intends to submit a proposal and asks you to prepare the proposal submission.

From the "Tender Announcement" file, you will focus on the subsystem **"A.3.4.3.6 Cash Management"**

Specifically, you are invited for the following:

1. The development methodology you will follow. You should justify why the The methodology you have chosen is appropriate for the specific project.

2. The description of the physical object, as well as the structure of the project in a diagram (Work Breakdown Structure – WBS), time planning using the Gantt chart, resource planning and project budgeting with the use of MS Project.

3. The information system development solution you propose. That is, for the your subsystem you will propose a concise description (design) of all aspects of the system (views) data, function, people, time, at a contextual, conceptual, logical level (Zachman framework), using the appropriate tools.

**Submission method:** Submission of deliverables will only be done through eclass.

You will "upload" a **zip file,** which will contain:

- A **PDF** that will have the answers to the questions in reference format and the necessary diagrams (e.g. Gantt chart, BPMN, UML, etc.).

- The source files of the diagrams.

The work is **individual.**

The deadline for submitting the work is Sunday 16/02/2025 at 23.59
